What are Medicare Supplement plans?

# How Medicare Supplement plans work with Original Medicare

Once you understand the different parts of Medicare and what they cover, it's easier to see how Medicare Supplement plans – also known as **Medigap** – can help.

  <b>PART A + PART B</b>	  <b>PART C</b>	 <b>PART D</b>	 <b>MEDIGAP</b>
<b>Original Medicare</b>	<b>Medicare Advantage</b>	<b>Prescription Drug Coverage</b>	<b>Medicare Supplement plan</b>
<ul style="list-style-type: none"><li>• A federal health insurance program for Americans aged 65 and over</li><li>• You may be eligible earlier if you have a disability or End-Stage Renal Disease</li><li>• Includes both Part A (which gives you hospital coverage) and Part B (your medical coverage)</li></ul>	<ul style="list-style-type: none"><li>• An all-in-one alternative to Original Medicare Parts A and B</li><li>• Usually offers additional benefits not included in Parts A and B, such as prescription drug coverage (Part D)</li><li>• Plan benefits may change annually, so you may need to shop for a plan on a yearly basis</li></ul>	<ul style="list-style-type: none"><li>• Helps pay for your prescription drugs</li><li>• Some Medicare Advantage plans include Part D coverage; if not included, it can be purchased separately</li></ul>	<ul style="list-style-type: none"><li>• Purchased in addition to Original Medicare</li><li>• Helps with many of the costs that Original Medicare doesn't pay, such as copays, coinsurance and deductibles</li><li>• Coverage that's guaranteed for life*</li><li>• Lets you see any provider that accepts Medicare patients – meaning no network limitations</li></ul>
<b>Typically, Medicare Part B only covers about 80% of your medical expenses.</b>	<b>Many plans restrict you to certain providers and may not cover unexpected expenses.</b>	<b>You can purchase a Part D plan along with a Medicare Supplement plan for more complete coverage.</b>	<b>A Medigap plan can help limit your out-of-pocket costs, which could add up quickly.</b>

<sup>4</sup>Medicare Part B coinsurance (generally 20% of Medicare-approved expenses) or copayments for hospital outpatient services. Plans K, L, and N require insured to pay a portion of Part B coinsurance or copayments.

<sup>5</sup>Note: Plan N pays 100% of the Part B coinsurance, except for a copayment of up to \$20 for some office visits and up to a \$50 copayment for emergency room visits that don't result in an inpatient admission.

<sup>6</sup>Under Pennsylvania law, a physician may not charge or collect fees from Medicare patients which exceed the Medicare-approved Part B charge. Plans F and G pay benefits for excess charges when services are rendered in a jurisdiction not having a balance billing law.

<sup>7</sup>Benefit is 80% and beneficiaries are responsible for 20% after the \$250 annual deductible with a \$50,000 lifetime maximum. Benefits are defined as medically necessary emergency care services beginning during the first 60 days of each trip outside the U.S.

<sup>8</sup>For Plans K and L, after you meet your out-of-pocket yearly limit and your yearly Part B deductible (\$257 in 2025), the Medicare Supplement plan pays 100% of covered services for the rest of the calendar year.

# What about Medicare Advantage?

You may have seen advertising for Medicare Advantage plans and for some people, it may be a good choice. It's important to remember that although a Medicare Advantage plan may have a \$0 premium, it doesn't mean that the plan is free.

## Here are the main differences between Medicare Advantage and Medicare Supplement plans

### Medicare Advantage

With a Medicare Advantage plan, you still have to pay for many out-of-pocket costs, including copays, coinsurance and deductibles up to an out-of-pocket limit as high as \$9,350.<sup>8</sup>

- Your benefits and rates may vary widely from year to year
- You may have to use in-network doctors and hospitals
- You might need referrals for specialists

<sup>8</sup>\$9,350 in 2025 for in-network and may be even higher for out-of-network services. There are Medicare Advantage plans that charge less. Your actual costs will depend on how much care you need.

### Medicare Supplement plans

A Medicare Supplement plan helps keep you in control, since you don't need to find a new doctor, shop for a plan each year, or worry about annual benefit or network changes.

- More predictable medical costs and low copays
- Choose your hospital and doctor as long as they accept Medicare patients
- No referrals needed for specialists
- Guaranteed coverage for life\*

*How can I apply?*

## Timing for enrollment

Around age 65, you have your Medicare Initial Enrollment Period (IEP). It is 7 months long and includes your 65th birthday month, the 3 months before and the 3 months after. This is the best time to enroll in Medicare Parts A and B, Medicare Advantage (Part C) or a Medicare Supplement plan.

Once enrolled in Medicare Part A and Part B, you can apply for a Medicare Supplement plan whenever is convenient for you.<sup>^</sup> The best time is during your six-month Medicare Supplement plan Open Enrollment Period (OEP), which starts the first day of the month in which you are both age 65 or older and enrolled in Part B.
